TVTools

EFFICIENT

INTUITIVE

EFFECTIVE

TVTools,
your new digital communication Partner

WELCOME YOUR GUEST DIFFERENTLY
by TVTools

⚙ THE PURPOSE

The welcoming and registering of your customers/guests will never be that user-friendly. Thanks to the fusion between **TVTools** and **CERES** touch podium, you will be able to display all type of informative content (safety and sanitary directive, legal text and site map). In addition, put your customers/guest in the forefront by giving them a filling form collecting all the needed information to ensure an efficient tracking of your visitor flow.

🔧 HOW IT WORKS ?

1 Define the range of needed information to display to your customers/guests.

2 Establish the register form desirede.

3 Extract and analyzed in real-time the collected information.

👍 TVTOOLS ASSETS

- Display all informative type of content (picture, video text, PDF).

- Real-time monitoring efficiency of all information collected by the filling form (with personal ID).

- Hybridization with other **TVTools'**s solution: add a Wayfinding asset to provide to your customers/guests an efficient way to find their location (appointment area, meeting room…).

❓ DID YOU KNOW ?

The fusion between **TVTools** and **CERES** touch podium will allow you to add SMART functionalities like barcode or RFID scanning, receipt printing and multi-touch asset.
