Wayfinding

by TVTools

Enlighten and guide your visitors easily in your premises.

THE PURPOSE

Thanks to **Wayfinding** screens connected with the Roombooking ecosystem powered by **TVTools** placed in the hallway, landing floor or in an optional exit. The user will search for the place or meeting room wanted quicker than ever.

HOW IT WORKS ?

Visitors, guests or staff select a location and find in real-time the path to follow, many tips and the availability of the chosen room.

TVTOOLS ASSETS

- Large choice of display device: touch screen totem indoor or outdoor, touch podium, touch tablet or digital touchscreen.
- Possibility to display 3D interactive map.
- Hybridization of **Wayfinding** and Digital Signage.
- Roombooking assets available in the main interface.

DID YOU KNOW ?

Wayfinding solution offer you to automatically adjust the path to follow according to the physical condition of the user (limited mobility friendly) for an optimal experience.
